About the TESS Center

The TESS Center was established as part of the Montgomery County Community Action Agency to address the needs of low-income County residents. The TESS Center is a walk-in DHHS site which provides information and referrals to residents seeking government and private resources and services. Its bilingual staff and volunteers (English, and Spanish or Amharic) serve a diverse community, including clients speaking other languages. As a Neighborhood Opportunity Network (NON) Site, Community Connectors and NON partners complement the TESS staff in providing services to residents. Montgomery County residents are connected to resources to address critical needs, such as food and nutrition, child care, housing, and emergency support services. TESS serves over 8,000 clients each year.
